P.O. Box 1450
Alexandria, VA 22313-1450**INFORMATION DISCLOSURE STATEMENT**

A Substitute Form 1449 is being submitted with this Information Disclosure Statement. The references cited in the Substitute Form 1449 were previously submitted with an Information Disclosure Statement filed on September 17, 2003. Accordingly, these references have not been included with this submission. However, at the request of the Examiner, the Applicant will be happy to provide any of these references to the Examiner.

The Information Disclosure Statement filed on September 17, 2003 included a form 1449 that listed the same references as listed in the Substitute Form 1449. However, it has been called to our attention that the earlier form 1449 failed to provide a date for a portion of the webpages that were listed. Accordingly, the Substitute Form 1449 re-lists three of these web pages as follows.

"Factory completed from 3E Labs" web page as downloaded from
www.3elabs.com/pages/ft c2.html on April 18, 2002 (pp 1, copyright
1998-2000).

"3E Labs Homepage" as downloaded from www.3elabs.com on April 18,
2002 (pp 1-2, copyright 1998-2000).

"Swage Crimp by 3E Labs" as downloaded from
www.3elabs.com/pages/ft c.html on April 18, 2002 (pp 1-2, copyright 1998-
2000).

PATENT

Docket No.: Q137-US5

Each of the above citations includes a copyright year that is more than one year before the earliest priority date for the above patent application. As a result, the listing of these copyright dates complies with the date requirement as set forth in MPEP609.04(a).

The Applicant is unable to determine an affirmative publication date for the reference that was listed on the prior form 1449 as follows: "Copy of Japanese packaging from National for Battery, BR425/2B; 2 pages." As a result, this reference has been removed from the Substitute Form 1449.

This Information Disclosure Statement is being submitted after filing an RCE and before mailing a first Office Action on the merits. As a result, this Information Disclosure Statement is being submitted without a fee or statement in accordance with MPEP609.04(b)(I)(C). If it should be determined that for any reason either an insufficient or excessive fee has been paid, please charge any insufficiency or credit any overpayment necessary to ensure consideration of the information disclosure statement for the above-identified application to Deposit Account No. 50-0921. A copy of this paper is enclosed.

Respectfully submitted:
